### **Update from Coastal Hydraulics, Inc. on COVID-19**

As we continue to navigate the challenges presented by COVID-19, Coastal Hydraulics' primary commitment is to maintain a safe environment for our employees, our families and our community, while continuing to support our customers' needs.

At this time we will remain open and operational as an essential business.

The State of New Hampshire, Section 18 of Executive Order 2020-04 issued an Emergency order #17 to clarify essential critical infrastructure workers during the COVID-19 response. Under the State of New Hampshire's definition of "essential businesses", Coastal Hydraulics will remain open to continue supporting our customers operating in the Food and Agriculture, Manufacturing, Public Works, Transportation, Utilities, and Waste Management business sectors.

We are operating under the guidelines and safety precautions set by local and federal government agencies to help limit and prevent the spread of COVID 19. To help combat the spread, we are following social distancing protocols, have increased cleaning throughout our facility, and provided employee education to cultivate an environment that will help keep everyone safe.

Thank you for your patience and continuing to work with us during this challenging time.

Stay healthy,  
The Coastal Hydraulics, Inc. Team
